5. After create the profile, you will be redirected to the license page. Click in one of the two places shown to select the license and choose the version to be downloaded,

6. Then, you will be asked to choose which version you want to download. Choose the newest one, R2020a.

7. Then, you will be prompted to choose what is the Operational System you have in order to download the right file. If you are a windows user, click Windows, if you are a Mac User, click Mac. If you are not sure talk to me. That will prompt the download of the file. Wait until the file is downloaded completely and then click twice in it to open.

1. Double-click the downloaded .dmg file then double-click InstallForMacOSX.app. You will then see the window below. Click Open.

Internet. Are you sure you want to open it?	the
"InstallForMacOSX.app" is on the disk image "matlab_R2020a_maci64.dmg". Safari downloaded this disk imag yesterday at 2:48 PM from www.mathworks.com . Apple check malicious software and none was detected.	
Don't warn me when opening applications on this dis	sk imag

2. Matlab will then ask for permission to to install. Enter your password.
